Welcome to BackTrack v.2.0 Final
.....

The system is up and running now.

Login as "root", with password "toor", both without quotes, lowercase.

After you login, try the following commands:

startx ... to run Xwindow system in VESA mode 1024x768 at 75Hz
flux .... the same like startx but use FluxBox instead of KDE
xconf ... to autoconfigure your graphics card for better performance
ati .... to autoconfigure ati drivers (download ati.lzm required)
Other commands you may find useful (for experts only!):

configsave/configrestore ... to save and restore all filesystem changes
fileswap .... to create special file for swapping RAM to your harddisk

When finished, use "poweroff" or "reboot" command and wait until it completes
.....
